

LE LAIT À LA BOUCHE

TRAVELING BOOTH

Fédération des producteurs de lait du Québec

Montreal, Quebec, Canada, 2008

This nomadic store for the Fédération des producteurs de lait du Québec, occupying roughly 35 square metres (380 sq. ft.), can accommodate visitors on its entire periphery, with a tasting station and four flat screens that provide the visitor with general information, recipes and milk product logos in continuous loops.

This circular booth features a futuristic look, clean and functional design, integrated lighting and video projections.

The booth has been traveling around Quebec for more than five years, offering visitors 40 different milk products made with 100% Canadian milk.
